

RIYA AWADHIYA

Software Development Engineer | React.js Frontend Developer | MERN Stack Developer

riyaawadhiya8200@gmail.com | [LinkedIn](#) | [GitHub](#) | +91 8962357984 | Jabalpur, Madhya Pradesh

PROFESSIONAL SUMMARY

Software Development Engineer with hands-on experience building highly responsive, reusable React.js user interface components for production web and cross-platform mobile applications. Comfortable working closely with development teams to review requirements, translate UI/UX designs into clean JavaScript code following React.js workflows, and troubleshoot and debug interface issues. Experienced in front-end architecture, performance optimization, REST API integration, and documenting application changes in Agile, startup, and freelance environments.

TECHNICAL SKILLS

Frontend & Mobile: React.js, React Native, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Expo Router, React Navigation, Responsive UI Development, Front-End Architecture

Backend & Database: Node.js, Express.js, REST APIs, MongoDB, Firebase, JWT Authentication, Zustand, React Query, AsyncStorage

Tools & E-Commerce: Git, GitHub, VS Code, Postman, Debugging & Troubleshooting, Shopify Development, Shopify Admin, Theme Customization

PROFESSIONAL EXPERIENCE

Full Stack Developer (Core Team) | *Vastra – Fashion Rental Startup*

Jan 2026 – July 2026

- Developed highly responsive React.js user interface components for a production-ready multi-vendor fashion rental platform on Android and Web.
- Met regularly with the development team to discuss UI/UX ideas, review application requirements, and identify web-based user interactions.
- Implemented authentication, product catalogue, search, filtering, navigation, and reusable UI components using JavaScript following React.js workflows.
- Troubleshooted interface issues and debugged application code during development, testing, and production deployment. Live: <https://vastra-official-website.web.app/>

Freelance Shopify Developer | *Self-Employed*

Nov 2025 – Jan 2026

- Customized 2 production Shopify stores (OllyPolly and Natchkin), developing responsive front-end layouts and theme enhancements.
- Managed product catalogs, monitored front-end performance, and deployed storefront updates using Shopify Admin.

Web Developer Intern | *Ouranos Robotics Pvt. Ltd.*

Apr 2025 – Nov 2025

- Developed cross-platform, highly responsive UI components for the BlueWave application using React Native, Expo, Tailwind CSS, and REST API integration.
- Reviewed application requirements and interface designs, then implemented front-end architecture to support user interface concepts.
- Contributed to Shopify storefront customization, debugging, and general front-end improvements.

UI Designer Intern | *Hartalkar Innovations*

Sep 2024 – Jan 2025

- Designed an EV Operating System interface, including a digital speedometer, using HTML, CSS, and JavaScript.
- Converted responsive UI designs into reusable React.js components and documented interface changes, improving usability, consistency, and user experience.

PROJECTS

Grahak – QR-Based Token System

- Built a QR-based digital token management system for food vendors with QR token generation, order tracking, and an analytics dashboard using the MERN Stack, React Native, and IoT.

AI-Powered Quiz Generation Platform

- Built an AI-powered quiz generation platform using the Google Gemini API to generate dynamic, topic-based quizzes with real-time API integration and a responsive user interface.

EDUCATION

Bachelor of Technology (Computer Science & Engineering) – Shri Ram Institute of Technology | 2026 | CGPA: 7.51

Higher Secondary (MP Board) – Govt. Model Higher Secondary School, Lakhnadon | 2022 | 81.7%
